Ms. Walker, 9157 Oak Creek Road, Cherry Valley, commented on an article about Beaumont Economic Stimulus plan which was implemented in 2009 by the City of Beaumont which cut the impact fees on permits. years, but the prior general manager and the prior Board did not implement it. She commented that the rate increase "was and is needed".

Secretary Woll invited John Covington to address the Board on this item. Mr. Covington stated that he fully reviewed the rate study. He indicated that his organization is working on a rate analysis. He questioned the audience as to what the District will do if a rate increase is not approved. According to a chart in the Willdan report, in 2013, the District will have a negative number. He urged the Board to pass the water rate increase.

Secretary Woll invited Linda Alexandra to address the Board on this item. Ms. Alexander, 34625 Boros Blvd., spoke representing the Fairway Canyon Homeowner's Association. She further criticized the Willdan's report and requested that the Board table this item to further study the Willdan report.

CLOSE PUBLIC HEARING

Interim General Manager Anthony Lara responded to the comments made by Fairway Canyon Representatives. Mr. Lara commented on the similarities from the report made by Sudhir Pardiwala from Raftelis Financial compared to the Willdan report.

Legal Counsel Gil Granito responded to a question by a member of the public as to why the need of a consultant. Mr. Granito indicated that Proposition 218 requires a Nexus Report to support findings that the proposed rates are fair and equitable. He further expressed his concerns regarding allegations about charge duplications in letters that Mr. Lara received. He further invited Mr. Tobbler to address the Board to clarify the allegations regarding those charges.

Mr. Tobbler stated that he reviewed all the documents that the District provided such as agreements and documents regarding the CFD No. 93. And 98-1 and Resolution 2007-03 and determined that the Five Year Capital Improvement Plan Projects were not part of these agreements. He further stated that according to his calculations, the rate increase will be an average of about \$3.25 every two months per domestic meter, and based on consumption.

Director Halliwill stated that it is important to know that the Willdan Report was based on the methodology established by the American Water Works Association.

Director Ross requested an explanation on how Willdan arrived at the numbers for the agricultural rate increase.

Mr. Tobbler indicated that all customer classes were treated the same and the rate increase was based on consumption in general.

Mr. Leach requested to address the Board questioning as to whether the Willdan Report had used the California Certified Civil Engineer's Report or not. He further stated that it is not about water rates but rather about the District paying for its Capital Improvement Projects and infrastructure. He further accused the Board of losing the 13 million dollars grant and now the Board is trying to get this money from the rate payers.

Legal Counsel Gil Granito stated that legally, the District has complied with the requirements of the law.

Director Woll commented that the District has not taken lightly the issue of raising rates. The District has re-structured by eliminating positions in the District and the employees had gone into a furlough which has resulted in a 10% decrease in pay. The District has further cut costs everywhere trying to avoid the rate increase. The District also has to be ready for 2014 which is when the Beaumont Cherry Valley Water District has to pay for the water over-drawn from the Basin or be able to replace it. The capital improvements included are efforts to divert water and percolate it into the Basin in order to credit the District's Account.

The Board will close the Public Hearing at this time and will reconvene to the Special Meeting.

Acting Chairman Parks closed the Public hearing at 9:11 p.m.

4. APPROVAL OF RESOLUTION 2010-09, A RESOLUTION OF THE BOARD OF DIRECTORS OF THE BEAUMONT CHERRY VALLEY WATER DISTRICT AMENDING PART 5 OF THE DISTRICT'S RULES AND REGULATIONS GOVERNING WATER SERVICES (RATES, FEES AND CHARGES)**

Director Halliwill requested an amendment to include the rates for the fire service sizes 1 inch and 2 inch as included in the rate study. He also recommended that an amendment be made to the Willdan Study, page 67 of 76 under the Power Charge as the charge should be 35 cents not 33 cents. Mr. Lara recommended that the table shown in the rate study be inserted in Part 5 of the Rules and Regulations. He further stated that the private fire service charges for the sizes under four inch are not included in the Rules and Regulations because the District does not provide fire service to connections under four inch.

Legal Counsel Gil Granito recommended that the date on the resolution reflecting the date of the Willdan report to be changed to May 13, 2010.

Director Halliwill moved to approve the Resolution 2010-09 with changes. Director Ross seconded. The motion passed by the following roll call:

Director Ross moved to revisit Item 2 regarding the approval of the Memorandum of Understanding. Acting Chairman Parks seconded. The motion passed by the following roll call:

Ayes:Halliwill, Ross, Woll, ParksNays:NoneAbsent:BallAbstain:None

Interim General Manager Anthony Lara provided a recap of the sequence of events that transpired during the negotiations between the ad hoc committee and the Employees Association. After the employees volunteered to take the furlough day per month, the representatives met with the ad hoc committee and proposed a three year extension of the current MOU (2006-2008). The ad hoc committee accepted the proposal and recommended it to the full board in Closed Session where it was approved. When Staff took the MOU back to "clean-up" the wording, the article related to the Cost of Living Adjustment was no longer applicable and needed to be changed. The Draft MOU that contained the new wording was again presented to the board in Closed Session but the article related to the Cost of Living Adjustments was left out. The wording that was proposed in Item 2 of tonight's agenda is what should be in the MOU as the Cost of Living Adjustment was included in the 2006-2008 MOU that was approved by both parties.

Director Ross commented that he was under the impression that the employees were going to forgo the Cost of Living Adjustment for four years and that is why he made the motion to table this item for future discussion.

Interim General Manager Anthony Lara stated that the Article 26 that needs to be included in the MOU should read as follows: "Salaries to be adjusted on January 1, 2011, 2012 and 2013. Salaries to be adjusted based on October to October Consumer Price Index, U.S. Cities Average"

Discussion followed regarding the issue about the COLA being a negative number in the future. The Board agreed adding a sentence "if the COLA is a negative then there will be no adjustments to the salaries that year".

Director Ross moved to approve the MOU with changes as read tonight. Acting Chairman Parks seconded. The motion passed with President Ball absent.

Interim General Manager Anthony Lara announced that the District will be closed on Monday, July 5, 2010 in observance of the holiday.

Ms. Ryan further read sections of a memorandum written and presented by the former general manager to the board in 2008 explaining his idea of "reserve amounts". She further read from the same memorandum that Cash on Hand was valued at 2.6 million, water held in reserves in the Beaumont Storage Unit was valued at over 6 million and the Reserves for the Water System expressed in Facility Fees per EDU were valued at 50 million. Interim General Manager Lara answered questions from both boards related to the size and capacity of the ponds. Lara explained that in his opinion and the opinion of the District's Engineer, is that if the allotment was to be at a 100%, the ponds could easily take the whole 17,300 acre feet of water.

Discussion followed regarding different possibilities of other agencies renting/leasing space, a joint powers agreement, and a possible partnership with other agencies. It was also suggested that the boards invite other agencies to join this venture, such as South Mesa Water Company and Yucaipa Valley Water District. The Boards further discussed the possibility of forming ad hoc committees to discuss and come back to the respective boards with basic ideas.

President Jeter invited Jennifer Ares representing the Yucaipa Valley Water District to share some information regarding her role at Yucaipa water District. She informed the boards and public that she is the Resources Sustainability Manager and that she is currently working on completing the Yucaipa Valley Water District's Urban Water Management Plan.

Boards agreed that this meeting was to open up discussions between the District and the Pass Agency and those other agencies will be invited to join at a later time. The Board directed Interim General Manager Anthony Lara to research with other agencies currently operating recharge facilities similar to the District's and use those agencies as a model. Board agreed that other agencies currently planning to build recharge facilities could benefit from the use of the District's facilities and therefore save the taxpayers money.

The Board also directed Lara to contact any other agencies that might have an interest in discussing possibility of working with the District.

Secretary Woll invited Mr. Joseph to report on this item. Mr. Joseph indicated that due to the District's well which is adjacent to his property, his well is going dry. He requested that the Board approve an emergency connection to serve his property. He mentioned that in a meeting in 2004, Mr. Butcher made the following statement "Mr. Butcher followed by saying that shallow wells located at the top end of the water table could indeed be sucked dry if the District decided to pursue its plans, the remedy would be that the Water District pay for the system to serve the affected homes at a reduced price so long as the consumption was for beneficial use" He requested that the District provide at least water service temporarily.

Interim General Manager Anthony Lara recommended that the Board approve service to Mr. Joseph's property as an "Outside Service" which means that the customer will be paying outside water rates. He further reported that Mr. Joseph currently has a connection and he would just need to pay for the meter.

Director Parks moved to approve emergency service to Mr. Joseph's property. Director Woll seconded.

Director Parks amended her motion to add that the District provides emergency water service to Mr. Joseph's property as long as needed.

He indicated that he has already been given direction by the Board to draft and send the letter. He further indicated that the letter will be addressed to the four HOA Representatives who signed the protest letter.

Discussion followed as to whether the same letter would need to be sent to all those people who protested the rate increase and the possibility that staff or Board members provide a presentation at the HOA locations to educate the public as to the need of the rate increase.

Patsy Reeley commented that the Board needs to write the letter to those four people who signed the letter and just end the discussions regarding this issue as none of those people have attended the meetings and the only reason they attended the meeting was because they were misinformed.

Director Woll moved for Mr. Lara to draft the letter and that the letter be very informative, but neutral and that it be sent to the four directors inviting them to contact the District should they have any questions. Vice President Parks seconded. The motion passed unanimously.

Beaumont Cherry Valley Water District Finance and Audit Committee Meeting of September 2, 2010, Thursday

Agenda Matter: Collection Agency Services

Recommendation:

District Staff is recommending that the District contract the services of Rash Curtis & Associates/Professional Recovery Systems in an effort to collect outstanding inactive accounts over 61+ days.

<u>Background:</u>

At the January 8, 2010 meeting, the Committee directed staff to research and report on aging receivables, placing special emphasis on the closed accounts with outstanding balances. At the May 6, 2010 meeting, staff was advised to send out a RFP for collection services and report their recommendation to the Committee by August/September.

Discussion:

Request for Proposals

On June 15, 2010, District staff sent out a Request for Proposal to seven collection agencies. The proposal submittal due date was July 15, 2010. The District received three proposals for services.

Initial Review

Four key staff members were given a copy of all three proposals to review along with a rating sheet. Staff members met to discuss, review and analyze the proposals and asked to sit on a panel that would conduct the interviews.

Interviews

The panel, which consists of four key staff members, interviewed all three firms. One interview was conducted via conference call while the other two firms were conducted in person. Following the interviews, the panel met to discuss the services offered by all three firms and by a majority decision, the panel voted to recommend Rash Curtis & Associates/Professional Recovery Systems.

Rash Curtis & Associates/Professional Recovery Systems has 44 years of experience in the field of collections. Their collection method/approach includes assisting debtors in finding other sources of revenue (utility payment assistance programs). Their professional bilingual services will aid the District in its goal to deliver exceptional customer service. Their staff receives continuous training and calls are audited for quality assurance. They have the technology to provide us with real time data for review and download at any time. They will also assist the District in developing collections policy and procedures.

Financial Impact:

The District currently has approximately \$272,700 in aging receivables that is 61 days or older (closed accounts). Rash Curtis & Associates/Professional Recovery Systems operates on a contingency fee basis, which is twenty-two percent (22%) of revenues collected. Though it is not anticipated, should legal action be required the fee would be thirty-five percent (35%).

It is anticipated that this will bring additional revenues to the District.

Received Time Jul. 31. 2009 10:29AM No. 4348 Page 82 of 105 of the Regular Meeting Agenda

Memorandum

To: Board of Directors

From: Anthony Lara, Interim General Manager

- Date: September 8, 2010
- **Re:** Controller Position

Background:

At the regular meeting of February 10, 2010 the Board of Directors, voted unanimously and directed the Interim General Manager to advertise for the hiring of a "Financial Officer". In subsequent meetings a pay scale and classification (Controller) were also approved by the board. The job description was developed and the position was filled. Since that time, the Controller has resigned and has been replaced on an interim basis through a professional staffing agency.

The early departure of the Controller in July was due to an offer of employment from another public agency that included a salary and benefit package that is more commensurate with the qualifications necessary to fulfill the responsibilities of the classification. After reviewing the salary ranges, benefits and job descriptions of other agencies, it is clear that in order for the District to hire and retain key personnel this salary range will need to be adjusted.

In an effort to avoid another transition in this very important position and to continue moving forward with the projects that are currently underway, I have offered Ms. Toledo (Interim Controller) a full time position. I have attached the 2009-2010 CSDA Administrative Salary Survey with salary ranges for our region highlighted. I have also attached a draft Job Description and proposed pay scale for the Board's consideration.

Recommendation:

That the Board approves the attached Job Description and proposed pay scale for the Controller classification as presented.
